EDUCATION

- Master's, Computer Science; GPA: 3.73 — University of Massachusetts - Dartmouth, Dartmouth, MA *Completed Aug 2024*
- Bachelor's, Electronics Engineering — Siddaganga Institute of Technology, Tumkur, India *Completed May 2020*

EXPERIENCE

- **One Community Global** San Gabriel, CA
Software Developer Oct 2024 – Present
 - Architected and delivered personalized dashboards, notification systems, and interactive analytics modules using React, TypeScript, and Node.js APIs, improving user engagement by 15%.
 - Developed and tested RESTful APIs with Node.js and Express.js, implementing unit and integration tests using Jest and integrating automated testing into CI/CD pipelines.
 - Optimized image delivery using AWS S3 and AWS CloudFront, reducing image load times by 60% and enabling the application to handle 3x more traffic without performance degradation.
 - Led migration from CircleCI to GitHub Actions, reducing deployment issues by 30% and streamlining CI/CD workflows.
- **University of Massachusetts - Dartmouth** North Dartmouth, MA
Full Stack Developer Sept 2022 – May 2024
 - Delivered a smoother digital experience for 5,000+ UMassD Online library users by upgrading the site with React, Node.js/Express, and MongoDB, reducing load times and boosting overall usability.
 - Guided 300+ students as Teaching Assistant for Software Testing and Database courses by designing projects, leading labs, and providing actionable feedback on deliverables.
 - Taught lectures and hands-on sessions to 70+ students on HTML, CSS, JavaScript, React, and D3.js in Data Visualization and Web Development courses, reinforcing core concepts through practical projects.
- **Accenture** Remote
Associate Full Stack Developer Nov 2020 – Jan 2022
 - Improved application performance by 20% by building and optimizing a scalable e-commerce platform using React, Redux, TypeScript, and GraphQL.
 - Enhanced deployment speed by 25% by implementing Docker, Kubernetes, and Jenkins for CI/CD pipelines in a Python-based microservices architecture.
 - Implemented comprehensive testing strategies, including unit testing with Jest and A/B testing, leading to a 15% reduction in runtime errors.
 - Collaborated with cross-functional teams to understand business needs, participated in peer reviews, and took ownership of the successful implementation of solutions.
- **OpenTurf Technologies** Remote
Junior Software Developer Oct 2019 – Oct 2020
 - Shortened development cycles by 20% by adapting to TypeScript and MongoDB to build production-ready chatbots with real-time interaction features for a web service.
 - Integrated multiple CRM workflows into the chatbot system, streamlining customer interactions and reducing manual follow-ups by 50%.
- **Apsis Solutions** Bengaluru, India
Intern May 2019 – August 2019
 - Increased website loading speed by 30% through optimizing JavaScript and CSS files, leading to better user experience.
 - Collaborated with senior developers to enhance UI/UX of company website, resulting in 20% increase in user engagement.

SKILLS & CERTIFICATIONS

Skills: JavaScript, TypeScript, Python, React, Node.js, SQL, MongoDB, Docker, Kubernetes, AWS, CI/CD, Agile.

PROJECTS

- **AI-Tutor:** Built a full-stack, AI-powered web tool for learning JavaScript using RAG-based Large Language Models.
- **FairShare:** Developed a cross-platform mobile app with 300+ active users, managing over \$10,000 in shared expenses.
- **Recipe-Diary:** Designed and launched a full-stack web app enabling 2,000+ users to browse, share, and manage recipes.
